## Detox Programs

### 8 Day Tissue Cleanse

Perhaps like so many others, you are suffering from 21st century conditions and complaints related to your health, wellbeing and enjoyment of life. We are living in a fast changing world, filled with substances and chemicals which are often harmful to our bodies. Most importantly, the food we eat is often burdening our systems with additives and agents our body cannot assimilate or handle.

We need to pay attention to those health issues and complaints which continue to be problematic. Perhaps you can relate to such 21<sup>st</sup> century health issues which include digestive complaints, weight gain, candida, headaches, mood swings, fatigue, allergies, hormone imbalances, infertility, chronic fatigue, high blood pressure, diabetes or hypoglycaemia (low blood sugar), skin problems, high cholesterol, emotional eating, stress, addictions (to sugar, caffeine, nicotine, alcohol), insomnia, painful joints.

By reducing the toxic load on the body and giving the body proper nutritional support, much of our symptomatic health issues can improve dramatically or disappear. That's what the "8 Day Tissue Cleanse" is designed to do - to give your body a break, rid it of toxins and strengthen the immune system.

**Your Life  
Your Body  
Look After It!**

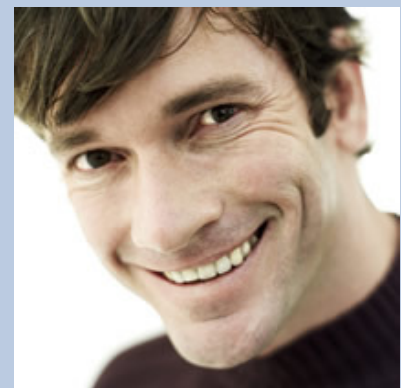

The 8 Day Tissue Cleanse reduces your chances of serious illness taking hold, enhances your detoxification mechanisms, and tunes-up your digestion, elimination and cellular

transport, giving you more clarity, more energy, and a new start in looking after your health and wellbeing.

This is a disciplined program. You are given everything you require with the program, including your daily routines schedule, supplements, daily colon hydrotherapy treatments, and lots of support from our staff who have undergone the program themselves on more than one occasion.
