Health Begins Within

## Ionic Detox Foot Bath

*Rid your body of toxins and enjoy increased energy levels as you fortify your immune system.*

The Ionic Detox Foot Bath is a Detox Bath and Body Energy Balancer using water energizing Bio-Electric Field Enhancement (BEFE) technology. It is a highly effective and gentle way to detoxify, cleanse and balance the Whole Body by using Negative Ions to gently pull toxins out of the body through the 2000+ pores in the feet.

***Experience natural healing and a re-balancing of the body's bio-electrical field.***

This state-of-the-art "bio-energy balancer" raises health care to a new level. The Ionic Detox Bath combines water, sea salt, oxygen and hydrogen. This combination of basic elements has a positive cleansing effect on your entire body. These oxygen and hydrogen elements create an Ionic field that enters and traces its way through the 2000 plus pores on your feet.

A low voltage DC charge flows through an electrode system which is positioned in a foot bath. This energises the water with negative ions, using direct current (DC) to create an energy field, which research has shown, is compatible with the human body. Electrolysis, boosted by the addition of salt to the water, splits the water molecule into positive and negative ions. These ions move through the numerous pores on the soles of the feet and travel with the blood throughout the body. The Ionic energy enters your lymphatic system and breaks the Ionic Bond of toxins that accumulate within the system, allowing the toxins to be pulled from the body through the pores in the feet. In this manner, hard-to-access organs can be detoxed effectively.

- If your lymphatic system becomes clogged and cannot drain these toxins, your immune system will eventually be weakened to the point where you become more susceptible to constant illness because T-cell production has been impaired or even compromised.
- The lower the T-Cell production, the weaker your immune system becomes and the easier you become ill. It is that simple!
- Once the Lymph System begins to clear, it again starts draining toxins into the Gastrointestinal Tract functioning as nature intended. It also increases T-Cell production giving the Immune System more of them to use fighting illness.
- Dislodging and eliminating these toxic substances that accumulate in your blood, your cells, your muscles and fat tissue, will considerably heighten your energy levels and your oxygen levels. It matters not if you are not feeling ill... prevention is always the best cure. This is why many professional athletes, the elderly and the general public use Ionic cleansing. The results speak for themselves.
- And it will help relieve every kind of pain. Arthritis. PMS Cramps. Headaches. Muscle pain. Toothaches. Any kind of pain.
